

“Provide innovative and quality learning opportunities preparing people for success in the workplace, in education, and in life.”

# Guiding Principles

Will the idea or decision:

- Positively impact more customers across the entire district and/or increase the organization's capacity to do so?
- Contribute to the organization's ability to provide high demand and improved opportunities for the customer?
- Allow the organization to serve the customer more efficiently, flexibly, and/or effectively?
- Provide a long-term benefit to the customer?
- Ensure that our stakeholders' investments in the organization are handled in a cost effective and socially responsible manner?
- Better prepare and/or equip the staff to provide the best training, education, and services for the benefit of the customer?
